-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see remarks, filed 4/10/2006, with respect to the rejection(s) of claim(s) 1-15 under 35 U.S. C 103 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Mohilef (U.S. Pat. No. 5,897,893) therefore prosecution has been re-opened.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-2 and 13-15 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for processing meat in the solution shown on page 3 lines 3-7, does not reasonably provide enablement for any processing procedures. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to practice the invention commensurate in scope with these claims.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 1761

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Claim 1 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Mohilef (U.S. Pat. No. 5,897,893). Mohilef discloses a pet chew comprised of an inner bone or bone-like core and at least one outer edible tubular wrapper layer composed of dried animal viscera or other tubular food product compositions (abstract). A suitable bone like core material is rawhide (col 2 line 3). The tubular composition wrapper made of suitable foods around a bone, shrinks to substantially conform to and surround the whole or a portion of the bone (col 2 lines 22-26). The outer layer may comprise a jerky-type product, which is extruded and placed around the bone core (col 3 lines 35-41), the product is dehydrated to shrink the edible outer wrapper layer to substantially conform to and surround the whole or a portion of the bone. Any suitable drying method can be used, from drying the product in the air to drying it in a suitable oven (col 4 lines 26-31). It would be obvious to one of ordinary skill in the art to expect that the outer layer is processed to be fresh and flavored otherwise it would not be attractive to the pet.

Allowable Subject Matter

6. Claims 3-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
